**TO WHOM IT MAY CONCERN**

Trusttech has been responsible for the smooth running of our I.T. infrastructure since July 2005. Our company has grown from several PC's to an international I.T. infrastructure over a very short period of time. Lyndon Beck, the Technical Director of Trusttech and I have always worked very closely together in the management of the I.T. function.

I have personally known Lyndon since 1993 through previous companies we have both been associated with. Our relationship has only ever existed on a professional level however I can not speak more highly of him as a person. Lyndon is of impeccable character. I believe that Lyndon's beliefs and values are firmly entrenched within the culture of Trusttech. Trusttech's professionalism and I.T knowledge have been second to none. The staff of Trusttech have always been extremely courteous and completed my requests in a prompt and diligent manner. Their professional, can do attitude on the job has always been very much appreciated. Our relationship with Trusttech has been more like a partnership. I feel they understand our requirements and always deliver on their promises. Trusttech and Footwear Industries have both grown together. It has been an absolute pleasure to have them along for the ride.
